Dear Mr. Bohne,

Thank you for contributing to the SOS Children's Villages Illinois Holiday Giving Program and for making the season bright for children and families in our care.

We are so grateful that the Bohne Foundation hosted a holiday party for the Lockport Village on December 21, 2016. Our children had a great time at the pizza party and were grateful to each receive a personal holiday gift. It is even more meaningful that your mother, Gayle, was there to help with the party and assist with the gift distribution.

Last year in our Villages we supported and cared for 495 children. Research shows that it is paramount that foster children retain some sense of familial identity. It is difficult enough that siblings need to deal with removal from their home. By providing a professional foster parent and stability, we provide the sense of family – preventing a child from being cut adrift and alone. Your support is critical to fulfilling this important mission.

We realize that you have choice with your time and resources and we appreciate you supporting us. Again, thank you for making a difference in the lives of children at SOS Children's Villages Illinois. Due to your generosity, our children felt special and loved this holiday season.

With sincere thanks and best wishes for the New Year,

Tim

Many thanks for all you
do!
